COMPANY PROFILE

Engineering Solutions | Rolling Stock | Railway Products | Global Sourcing

Thank you for the opportunity to introduce our company, our experienced team, and the markets in which we operate.

With **more than 50 years of experience in the engineering, importing and exporting industries**, our company specialises in **Rolling Stock products, railway equipment and engineering solutions**, supplying clients across Africa and international markets.

Our extensive global network includes **approximately 30 agents and business partners worldwide**, supported by a well-established database of reputable manufacturers, suppliers and industry contacts. This enables us to source and supply a diverse range of products while providing our clients with reliable, cost-effective and customised solutions.

OUR EXPERTISE

Our team brings together **more than 200 years of combined experience** across engineering, general engineering, Rolling Stock refurbishment, maintenance, project management, quality control and related technical disciplines.

Our capabilities extend across the complete project and product lifecycle, including:

- Engineering and technical solutions
- Rolling Stock products and refurbishment
- Maintenance and repairs
- Design and development
- Quality control and assurance
- Skills development and training
- Project management
- Job creation and skills transfer
- Global sourcing, importing and exporting

QUALITY & INTERNATIONAL STANDARDS

Quality and compliance are fundamental to the way we operate.

Our products are sourced and supplied in accordance with the **applicable international standards and specifications for each product and application**. Where required, relevant certification and supporting documentation can be provided in accordance with our clients' specified quality, technical and regulatory requirements.

A GLOBAL NETWORK WITH LOCAL EXPERTISE

Over many years, we have established strong relationships with clients, manufacturers and suppliers across a broad range of industries and international markets.

Our global network and industry experience allow us to identify the right products and solutions for our clients, while our knowledge of the African market enables us to provide practical and responsive support locally.

OUR ONE-STOP-SHOP APPROACH

Our philosophy is simple: **to provide our clients with a comprehensive, reliable and responsive one-stop sourcing and engineering solution.**

While our core expertise lies within the railway and engineering sectors, our extensive international network allows us to source and supply a wide variety of **standard, specialised and custom-made products** to meet specific client requirements.

We welcome the opportunity to assist with challenging or specialised requirements and to develop solutions that are practical, efficient and aligned with our clients' needs.

OUR COMMITMENT

Our experience, global network and commitment to quality enable us to deliver value through **reliable sourcing, technical expertise, international standards and professional project support.**

We are proud of the relationships we have built over decades and remain committed to providing our clients with dependable products, innovative solutions and exceptional service.

We look forward to working with you.
